SENSEN

by SenMetric

Portable . Objective . Fast

Fall Risk

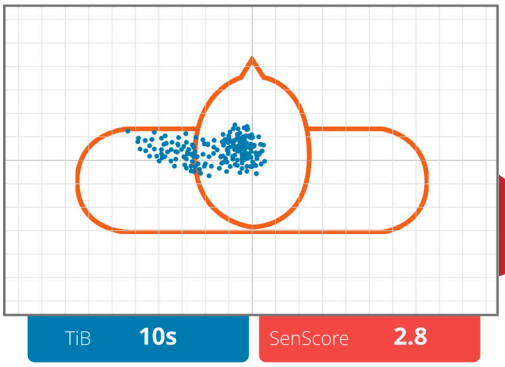

Identify Fall Risk patients based on CDC measures.

Balance

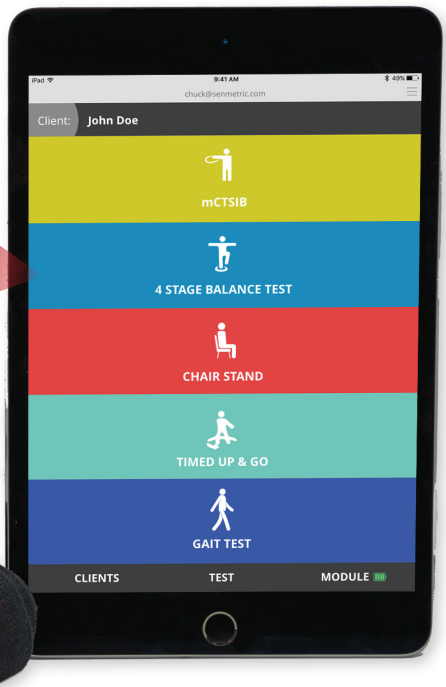

CDC STEADI 4SBT, TUG, Chair Stand + mCTSIB.

Gait

Quickly see gait speed, step count, and stride length.

Sample output: Overhead instability graph

FALL RISK

Portable Design

Small footprint consists of a tablet and wireless module.

Objective Measures

Outputs are measurable and repeatable. Like a blood pressure reading for balance and gait.

Functional Tests

Assessments simulate real world patient environment and movements.
